CHEW

Our most concentrated
and fastest acting
formula, to support
and aid dogs with age
related joint concerns

YUMOVE'S EXCLUSIVE TRIPLE ACTION FORMULA

AIDS THE BODY'S OWN ANTI-INFLAMMATORY PROCESS

ActivEase® Green Lipped Mussel, sourced from the crystal-clear waters of New Zealand, provides a highly-concentrated source of unique Omega 3 fatty acids. Combined with purified fish oil, YuMOVE ADVANCE 360 Hip & Joint supplement provides effective levels of Omega 3 fatty acids EPA and DHA for our fastest-acting results. Working together, these increased levels aid the natural anti-inflammatory action to support stiff joints.

SUPPORTS JOINT STRUCTURE

Glucosamine provides the major building blocks of cartilage—the tough connective tissue that protects the joint. Fast-acting N-Acetyl-D-glucosamine and ActivEase® Green Lipped Mussels maintains healthy joint structure. Manganese supports collagen formation in the cartilage, tendons and ligaments.

MAINTAINS JOINT MOBILITY

Hyaluronic Acid is a major part of the synovial fluid which helps lubricate and cushion the joint within 2 hours†. Antioxidant Vitamin C and increased levels of Vitamin E optimize the metabolism of Omega 3 and neutralize free radicals to maximize mobility.

YuMOVE is proven to work within 6 weeks*, thanks to ingredients like the world's top strength, cold vacuum extracted ActivEase® Green Lipped Mussel.

* Study conducted by the Royal Veterinary College. Data on File. †Balogh et al., 2008

IS YOUR DOG TRYING TO TELL YOU SOMETHING?

Stiff joints affect dogs of all ages - here are some signs to look out for:

LESS KEEN TO JUMP, WALK OR PLAY

Dogs usually love to move and play, but if they're experiencing stiff joints, they might avoid even their favorite games. This can lead to weight gain, which puts extra pressure on their joints.

SLEEPING MORE

Older dogs tend to sleep more but it can be a sign of aging joints too.

STRUGGLES TO GET UP AFTER RESTING

We all have our lazy moments, but if your dog is slow to get up or seems to have difficulty, it can be a sign of stiff joints.

PERSONALITY CHANGES

If your dog stops being cuddly and loving and becomes more nervous, depressed or aggressive, especially if you go near a particular body part.

Reasons to choose YuMOVE ADVANCE 360:

- ✓ The YuMOVE ADVANCE 360 range is our most concentrated and fastest acting formula, to support and aid dogs with age related joint concerns
- ✓ Only YuMOVE joint supplements include ActivEase® Green Lipped Mussel
- ✓ Ethically sourced, high quality, ingredients
- ✓ 60 Day Money Back Guarantee - Try with confidence
